What is Labor Day?

Labor Day, the first Monday in September, is a creation of the labor movement and is dedicated to the social and economic achievements of American workers. It constitutes a yearly national tribute to the contributions workers have made to the strength, prosperity, and well-being of our country.

Initially started in 1885-86 it became law On June 28, 1894 and has been celebrated ever since.

How are you spending the day? For people with children, it is the day to get them ready for school the next day. For others it's an extra day off to go fishing, surfing, beach combing or just relaxing with a good book. Whatever your plans, enjoy the day.
